

COVID-19 protection measures during the 2nd Common Ground Meeting on Chronic Inflammation (September 11, 2020)

The number of participants:

The number of participants in the 2nd Common Ground Meeting is limited to 200.

Disinfection:

Automatic disinfection stations are arranged throughout the building and continuous cleaning and disinfection of all operating surfaces is provided by the STCC. Furthermore, we will ensure the cleaning and disinfection of all audio-visual equipment offered to speakers.

Distance:

Please keep the recommended distance to other people whenever possible and respect the flow management through ground signage and display provided by the STCC.

Mask obligation:

Please wear a protective mask during the whole conference. The recommended distance of 1.5m between attendees can not be guaranteed at all times. Four masks per day and person can be obtained free of charge at the registration desk. Shields/sights are not allowed!

SwissCovid App:

Please install the SwissCovid App on your smartphone and leave it activated.

Tracing & Quarantine:

If a participant is tested positive after the conference, the contact details of all those present at the same time will be forwarded to the authorities. If you are affected, you will be contacted and are obliged to go into quarantine.

Risk groups:

Persons who belong to a risk group should not attend the conference.

Symptoms:

Persons who have Covid-19 symptoms must stay at home and are not allowed to participate at the conference.

Travel returnees:

Persons who were in countries or areas with an increased risk of infection are not allowed to attend the conference.

Updating:

The protective measures are continuously updated and adapted to the applicable regulations.
